LAPORAN NAIB CANSOLOR VICE CHANCELLOR'S REPORT

Universiti Putra Malaysia (UPM) yang bermula sebagai sebuah universiti yang berasaskan pertanian telah berkembang maju menerusi perluasan bidang-bidang pengajian yang mengambil kira keperluan semasa negara di samping melahirkan golongan profesional.

Jika ditinjau dari segi sejarah, UPM bermula sebagai Sekolah Pertanian Malaya pada tahun 1931 dan kemudiannya dinaik taraf kepada Kolej Pertanian. Seterusnya pada tahun 1971, ia bergelar Universiti Pertanian Malaysia. Selaras dengan perkembangannya yang begitu pesat dalam bidang pendidikan ditambah pula dengan peluasan bidang pengajian, pada tahun 1997 UPM telah menukar nama daripada Universiti Pertanian Malaysia kepada Universiti Putra Malaysia.

Menjelang tahun 1999, UPM telah berjaya melahirkan seramai 49,170 graduan dalam pelbagai bidang. Taburan kadar pertumbuhan graduan ditunjukkan dalam Jadual 1 dan Carta 1. Terdapat pertambahan sebanyak 122% graduan pada tahun 1999 iaitu 7,739 graduan berbanding 3,487 graduan pada tahun sebelumnya. Jumlah ini menunjukkan pertambahan tertinggi yang pernah dicapai oleh UPM. Keadaan ini juga menunjukkan bahawa UPM mampu membekalkan tenaga profesional dalam pelbagai bidang pada masa akan datang berdasarkan kepada pertumbuhan pelajar yang begitu pesat sekali.

Historically Universiti Putra Malaysia was founded as an Agricultural School in 1931, upgraded to an Agricultural College and subsequently promoted to become the University of Agriculture in 1971. Today the courses offered at the university have expanded to include a wide range of disciplines. This was a natural development of the University aligning itself with the national objectives of producing more tertiary-level trained individuals to meet the burgeoning demand for professionals. In view of these developments, a name change was deemed necessary. Universiti Pertanian Malaysia was renamed Universiti Putra Malaysia in 1997.

As of 1999, 49,170 graduates have successfully completed various fields of studies in UPM. Table 1 and Chart 1 reflect these impressive figures. In 1999, the number of graduates was 7,739 compared to 3,487 in 1998. This was an increase of 122%, the highest ever recorded in UPM's history. This is a clear indication that UPM has the capability and capacity to produce professional manpower in various fields.

Pertumbuhan pesat dalam pengeluaran graduan pada tahun 1999 menyebabkan UPM mengadakan dua sidang konvokesyen. Daripada 7,739 pelajar yang bergraduasi, jumlah graduan Doktor Falsafah seramai 41 orang, Sarjana 906 orang, ijazah pertama 6,233 orang dan diploma 559 orang. Di samping pengeluaran siswazah yang tinggi, UPM juga mementingkan kualiti pelajarannya. Ini dibuktikan oleh UPM dengan kejayaan melahirkan seramai 127 pelajar ijazah kelas pertama dan 3,472 ijazah kelas kedua tinggi pada tahun 1999. Peratus pelajar mengikut peringkat pengajian adalah seperti dalam Carta 2.

Pengambilan pelajar seramai 15,907 orang pada tahun 1999 juga menunjukkan peningkatan sebanyak 18.79% berbanding tahun sebelumnya. Daripada jumlah tersebut 236 ialah pelajar Doktor Falsafah, 2,036 pelajar Sarjana, 10,393 pelajar ijazah pertama, 1,170 pelajar diploma dan 2,072 pelajar Matrikulasi. Dari segi enrolmen pelajar, UPM mempunyai seramai 35,263 pelajar berbanding 30,902 pelajar pada tahun 1998, meningkat 14.1%. Hal ini menunjukkan UPM begitu aktif dalam usaha ke arah mewujudkan masyarakat yang berpendidikan tinggi di negara ini.

Pusat Pengajian Siswazah UPM memainkan peranan penting dalam melahirkan pelajar dalam bidang pascasiswazah apabila pada tahun 1999, seramai 2,272 telah mendaftar mengikuti pelbagai bidang pengajian dan menjadikan enrolmennya seramai 4,677 orang. Daripada jumlah tersebut, seramai 525 atau 11.2% adalah pelajar luar negara yang terdiri daripada lebih 40 negara di seluruh dunia. Hal ini selaras dengan hasrat menjadikan UPM sebagai pusat kecemerlangan pendidikan di peringkat antarabangsa.

UPM telah mengikuti beberapa program promosi melalui pameran program pengajian di dalam dan di luar negara seperti di Pusat Dagangan Dunia Putra, Kuching, Surabaya, Bangkok, Haadyai, Beijing, Shanghai dan Ho Chi Minh City. Tujuannya ialah untuk mempertingkatkan penyebaran maklumat tentang UPM terutama dari segi perkembangan terkini program pengajian serta kemajuan yang telah dicapai kepada semua peringkat masyarakat di dalam dan di luar negara.

Pada tahun 1999, program Pendidikan Jarak Jauh (PJJ) menunjukkan prestasi yang memberangsangkan dengan pertambahan dalam pengambilan pelajar sebanyak 59.5% berbanding tahun sebelumnya dan ini menjadikan enrolmennya berjumlah 7,977 orang. Lapan program baru telah diperkenalkan melalui program PJJ ini di samping mengekalkan enam program lama. Dengan ini sebanyak 14 program ditawarkan. Permintaan terhadap program PJJ yang semakin meningkat menunjukkan bahawa masyarakat mulai sedar tentang keperluan mempunyai pendidikan tinggi.

In 1999, due to the large number of graduating students, UPM had to organise two convocation sessions. Of the 7,739 students who graduated, 41 were Ph.Ds, 906 Masters, 6233 Bachelors and 559 Diploma holders. Whilst recording a phenomenal increase in graduates, a concurrent increase in the quality of the graduates was also achieved. For the first time, 127 were conferred first class honours while 3,472 were conferred second upper class honours. The breakdown of graduate students by category is shown in Chart 2.

CARTA / CHART 2
PENGLUARAN SISWAZAH
GRADUATE OUTPUT

The intake of 15,907 students in 1999 indicates a 18.79% increase over 1998. Of this total, 236 were Ph.D students, 2,036 Masters, 10,393 first degree, 1,170 Diploma and 2,072 were pursuing Matriculation programmes. UPM's enrolment increased from 30,902 in 1998 to 35,263 students in 1999; a 14.1% increase. This increment reflects UPM's commitment towards creating a well-educated society.

The Graduate Studies Centre has played an important role in attracting more post-graduate students to the University. In 1999, 2,272 students registered for various courses bringing the total enrolment to 4,677. Of this figure, 525 or 11.2% were foreign students from 40 different countries. This augurs well for UPM as it works towards establishing itself as a reputable International University Centre.

Kerjasama dengan kolej swasta juga dipertingkatkan dengan menambah pengambilan pelajar. Sejumlah 1,950 pelajar telah mendaftar dengan 30 kolej-kolej berkenaan yang menawarkan 14 program bachelar dan sembilan program diploma. Manakala jumlah enrolmen keseluruhan ialah 7,606 orang. Melalui program kerjasama ini, UPM telah berjaya mengeluarkan seramai 732 graduan.

UPM begitu aktif dalam aktiviti penyelidikan sehingga menjadikannya antara penerima peruntukan tertinggi penyelidikan IRPA selama beberapa tahun. Terdapat sebanyak sembilan sektor tumpuan utama penyelidikan IRPA di UPM iaitu agroindustri, galian dan tenaga, pembuatan, perkhidmatan dan teknologi maklumat, ekonomi, kesihatan, sosial, alam sekitar dan sains yang melibatkan 106 projek penyelidikan dengan peruntukan diluluskan sebanyak RM13,051,700. Selain itu UPM juga menerima peruntukan sebanyak RM2.1 juta bagi membiayai 231 projek penyelidikan jangka pendek.

Mulai 1 Jun 1999, UPM telah memperkenalkan skim penyelidikan untuk pensyarah lantikan baru. Melalui skim ini, peruntukan maksimum pensyarah lantikan baru ialah RM10,000 bagi memudahkan penyelidikan di bawah bimbingan dan pengawasan seorang profesor atau pensyarah kanan. Ia bertujuan memastikan kakitangan akademik UPM terlibat secara aktif dalam aktiviti penyelidikan di samping aktiviti pengajaran yang sedia ada.

Pertumbuhan pesat pengambilan pelajar memerlukan pertambahan kakitangan dalam pelbagai peringkat pengurusan bagi mengendalikan pelajar dan mengurus kemudahan untuk pelajar. Sehubungan dengan itu, UPM mempunyai sejumlah 4,414 kakitangan di pelbagai peringkat pengurusan. Seramai 75 kakitangan dalam kumpulan pengurusan dan profesional (akademik) yang terdiri daripada warganegara tempatan dan asing telah dilantik secara kontrak, manakala kakitangan sokongan seramai 37 orang telah dilantik secara kontrak bagi menjamin aktiviti universiti berjalan lancar.

Seramai 324 orang telah dilantik untuk mengisi jawatan kosong. Dari jumlah tersebut, 293 orang adalah untuk kumpulan pengurusan dan profesional dan selebihnya (31 orang) untuk kumpulan sokongan. Selain itu sejumlah 38

UPM's efforts to promote and market its programmes locally as well as overseas is an on-going affair. It has held road shows at Putra World Trade Centre, Kuching, Surabaya Bangkok, Haadyai, Beijing, Shanghai and Ho Chi Minh City. These promotional activities are largely aimed at creating awareness as well as providing updated information on programmes, courses and progress of the University.

The Distance Learning Programme (PJJ) registered a tremendous increase in student intake for 1999. There was a 59.5% increase over 1998 resulting in a total of 7,977 distance learning students in UPM. Besides the existing six courses, eight new courses have been introduced bringing the total to 14. The increase in demand for PJJ courses reflects an increase in awareness among Malaysians on the need to acquire higher education.

Collaborations with private colleges has been intensified. A total of 1,950 students have registered with 30 franchised colleges, which offer 14 Bachelor's programmes and 9 Diploma programmes. The overall enrolment stands at 7,606. Through this collaborations, 732 students graduated from UPM.

UPM has always been very active in research. For several years the University has received the highest IRPA research allocation. The 9 priority areas for IRPA research are IT, agroindustry, minerals and energy, manufacturing services, economics, health, social, environment and science. These research areas encompass 106 research projects with a total allocation of RM13,051,700. A further RM2.1 million has been allocated for short-term research projects.

Since 1 June 1999, a new research scheme was introduced for newly appointed lecturers. Under this scheme, a new lecturer is allocated RM10,000 to undertake research under the guidance and supervision of a senior lecturer or professor. This is to enable lecturers to be actively involved in both research and teaching.

The tremendous increase in student intake has seen the appointment of additional staff to ensure that adequate services and facilities are provided for the students. The University currently has 4,414 staff in various management categories. In the Professional and Management Group

orang telah dinaikkan pangkat. Tujuh orang dinaikkan pangkat kepada professor (VK7), 10 orang kepada professor madya dan 21 orang dalam skim yang sama. Seramai 27 orang telah meletakkan jawatan sementara 64 orang lagi telah bersara dari perkhidmatan. Mereka yang terlibat ialah 21 dalam kumpulan pengurusan dan profesional dan 43 orang dalam kumpulan sokongan.

Pembangunan merupakan salah satu agenda utama UPM dalam memastikan kemudahan prasarana dan infrastruktur untuk pelajar dapat disediakan mengikut perkembangan dan teknologi semasa. Ia juga bagi menjamin kualiti pelajar yang dikeluarkan nanti memenuhi keperluan negara akan datang. Sehubungan dengan itu, UPM telah melaksanakan beberapa projek termasuk pembinaan stadium mini, Kompleks Kejuruteraan dan Teknologi, Kompleks Akademik Pusat, bangunan Fakulti Sains Komputer dan Teknologi Maklumat, Bangunan Hal Ehwal Pelajar, Bangunan Kompleks Sains Sosial, Bangunan Fakulti Reka Bentuk dan Seni Bina dan Bangunan Pusat Penyelidikan dan Pembangunan.

Hubungan kerjasama dengan pelbagai pihak sama ada dari dalam atau luar negara dalam pelbagai bidang seperti penyelidikan, pendidikan, teknologi, teknologi maklumat dan sebagainya memberi ruang kepada UPM mempertingkatkan kemajuan dalam banyak aspek. Oleh yang demikian dalam tahun 1999 sebanyak 14 memorandum persefahaman telah ditandatangani bagi tujuan tersebut, manakala sebanyak 29 delegasi dari seluruh dunia telah melawat UPM bagi mewujudkan kerjasama.

Usaha ini yang dilaksanakan agar UPM bergerak seiring dengan perkembangan teknologi maklumat pada masa akan datang telah menjadikan UPM begitu kreatif dalam merancang program pendidikan dan penyelidikan yang boleh menyumbang kepada pembangunan negara. Sehubungan itu, Institut Multimedia ditubuhkan bagi tujuan mengkoordinasi, melaksana, melatih dan merangkaikan sumber-sumber di UPM bagi pembangunan multimedia dari segi pengajaran dan pembelajaran, pembangunan kandungan multimedia, penyelidikan, perundangan dan perkhidmatan profesional.

Kecemerlangan pelajar-pelajar UPM di peringkat antarabangsa membuktikan UPM mampu melahirkan pelajar yang setanding dengan universiti-universiti lain di

(Academics), 75 local and expatriate staffs and 37 support staff were appointed on a contract basis for the efficient and effective functioning of the University's activities.

Another 324 staff were appointed to fill in vacancies in various positions. Of this, 293 were for the Management and Professional Group and 31 for the Support Service Group. In addition, 38 others were promoted. Seven lecturers have been promoted to professors (VK7) and a further 21 to Associate. Professors. Twenty-seven permanent staff had resigned whilst another 64 staff retired. These include 21 from the Management and Professional and 43 from Support Service Groups.

The rapid increase in student population necessitates a commensurate development in infrastructure and facilities that keeps abreast with current technological developments. UPM has embarked on a number of projects, viz. construction of a mini stadium, an Engineering and Technology Complex, Student Affairs Building, Central Academic Complex, Computer Science and IT Complex, Social Sciences Complex, Faculty of Design and Architecture, and Research and Development Centre Buildings.

UPM's numerous joint-venture and collaborative programmes and undertakings with local and foreign organisations in research, education, technology and IT has given a definite advantage in charting its growth. In 1999 alone, 14 MOU were signed with several organisations/institutions while 29 delegates from various parts of the world visited UPM to explore areas for cooperation and linkages.

To keep abreast with the rapid developments in IT, UPM has taken a creative approach in planning educational and research programmes that will help the country's development efforts. Additionally, the Multimedia Institute has been established to coordinate, implement, train and network resources in UPM for multimedia development in learning/teaching, multimedia content development, research, consultancy and professional services.

Several UPM graduates have received international accolades, indicative of our ability to produce high calibre students who can compete successfully in the international arena. The University is proud to place on record that two

peringkat antarabangsa. Dua pelajar UPM telah berjaya mendapat tempat pertama dalam pertandingan "International Student Design Competition" anjuran International Federation of Landscape Architects (IFLA) di Bali, Indonesia dan di Korea.

Sukan yang menjadi aktiviti kokurikulum pelajar juga menjadi agenda utama UPM selain daripada akademik dan penyelidikan. Pembinaan Kolej Atlit di UPM hasil kerjasama UPM dengan MSN telah memberi peluang kepada ahli sukan untuk mempertingkatkan ilmu di samping memajukan lagi bidang sukan negara. Kecemerlangan dalam bidang sukan ditunjukkan melalui kejayaan-kejayaan yang dicapai sepanjang tahun 1999 apabila UPM menerima Anugerah Olimpian International Olympic Council (IOC) kerana kecemerlangan dalam bidang akademik dan sukan.

Selain itu UPM juga muncul sebagai johan keseluruhan sukan antara institusi pengajian tinggi negara dan sebahagian besar para atlit UPM telah mengganggotai Kontinjen Malaysia ke sukan antara universiti ASEAN pada 1 hingga 6 Disember 1999 dan telah meraih banyak kejayaan.

Akhir sekali, saya mengucapkan terima kasih kepada semua pihak yang telah memberikan kerjasama terutamanya kepada Lembaga Pengarah Universiti, Pegawai Utama Universiti, kakitangan akademik, kakitangan pengurusan dan kakitangan sokongan yang telah memberikan kerjasama dalam memastikan keunggulan UPM dalam pembelajaran, penyelidikan dan pembangunan.

Sekian terima kasih.

UPM students emerged champions in the *International Student Design Competition* organised by the Federation of Landscape Architects (IFLA) of Bali, Indonesia and Korea.

Sports as a co-curricular activity is important in UPM's agenda for the development of the individual. The construction of the Athletes' College at UPM, a joint venture between the National Sports Council (MSN) and UPM has provided sportsmen with an opportunity to hone both their academic knowledge and sporting talents. The award bestowed by the International Olympic Council for excellence in Sports and Academic fields on UPM is evident of the University's efforts towards developing the whole individual.

UPM emerged the overall champion in the Inter-University Sports Meet and a number of UPM sportsmen donned the national colours at the ASEAN University Meet from 1 – 6 December 1999.

Finally I wish to place on record my sincere appreciation to all especially the Board of Directors, the University's Principle Officers and academic and professional management and support service staffs who have contributed towards developing UPM as leading a centre of learning, research and development.

Thank you

Pengajaran dan Pembelajaran PJJ

Kaedah pengajaran dan pembelajaran PJJ adalah berteraskan pembelajaran fleksibel melalui modul belajar sendiri (self-instructed modules). Modul tersebut yang ditulis oleh pensyarah-pensyarah UPM bagi setiap kursus disediakan dalam bentuk cetak dan diedarkan kepada semua pelajar.

Pada tahun 1999, sebanyak 196 modul telah disediakan bagi kesemua program pengajian. Pada tahun ini juga IDEAL telah melantik seramai 317 tutor di seluruh negara. Dua latihan intensif telah dikendalikan oleh IDEAL untuk memastikan setiap tutor didedahkan kepada modul yang disediakan dan hal-hal yang berkaitan dengan kursus yang diajar.

Sehingga tahun 1999, IDEAL telah menyediakan sebanyak 40 pusat pembelajaran di bandar-bandar strategik di seluruh negara dengan kerjasama Yayasan Pelajaran Mara (YPM),

Teaching and Learning in Distance Learning

The teaching and learning methodology for distance learning is based on flexible self-instructional modules. These self-instructional modules are written by UPM lecturers and are bound and distributed to all PJJ students.

In 1999, 196 modules were published for all the programmes. In the same year, IDEAL enlisted 317 tutors throughout the nation and organised two intensive courses to familiarise them with the modules as well as other aspects related to the programmes.

As of 1999, IDEAL had established 40 centres at strategic locations throughout the nation in collaboration with MARA Educational Foundation (YPM), CELCOM and several other private corporations. These centres are equipped with lecture and conference halls, examination halls, resource rooms, computers with internet facilities, and communication system and other audiovisual aids for teaching.

CELCOM dan beberapa syarikat swasta. Pusat-pusat pembelajaran dilengkapi dengan kemudahan bilik tutorial dan perbincangan, bilik peperiksaan, pusat sumber, komputer dengan kemudahan internet, kemudahan perhubungan, alat mengajar dan lain-lain.

Kaunseling dan Kerjaya

Pada tahun ini seramai 273 pelajar UPM telah mendapatkan perkhidmatan kaunseling. Jumlah ini tidak termasuk pelajar-pelajar yang mendapatkan bimbingan tentang pembelajaran dan maklumat kerjaya. Bilangannya rendah berbanding tahun 1998 kerana ramai kaunselor yang terlibat dengan aktiviti-aktiviti pelajar seperti penasihat persatuan yang diadakan oleh Bahagian Hal Ehwal Pelajar.

Jadual 12 dan Carta 6 menunjukkan bilangan pelajar yang mendapatkan khidmat Unit Kaunseling mengikut jantina.

Kelompok keempat terdiri daripada pelajar Kolej ke 6 yang ingin mewujudkan sistem mentor dan mentee di kolej tersebut.

Kelab Bimbingan Rakan Siswa

Kursus-kursus untuk melatih ahli-ahli baru telah dapat dijalankan dengan bantuan ahli-ahli lama dan kaunselor-kaunselor di unit. Unit ini menggalakkan pelajar-pelajar yang memang sudah menjadi ahli PRS di sekolah untuk meneruskan perkhidmatan mereka di universiti. Mereka digalakkan untuk berkongsi pengetahuan dan pengalaman dengan ahli-ahli di sini. Sebanyak tujuh aktiviti telah dijalankan dan mencapai matlamat yang diharapkan. Aktiviti dibahagikan kepada dua bahagian. Bahagian pertama bersama pelajar-pelajar di kampus dan bahagian kedua bersama masyarakat luar kampus khususnya murid-murid sekolah.

Group Counselling

In 1999, the Career & Counselling Unit organised four group counselling programmes. The first such programme involved students who had previously been given warning and the counselling session was conducted by appointed officers. Three sessions were held under this programme. The second and third group sessions were conducted for volunteers who would in turn become facilitators in the ‘Sayang Selasih’ Programme held at Alor Gajah, Malacca. The fourth group session was conducted for 6th College students, who were planning to establish a mentor-mentee system at the college.

Peer Guidance Club

Courses for new members were conducted by ex-members and unit counsellors. Those who have had PRS training in schools were encouraged to continue offering their services in the University. Seven activities were conducted to achieve the expected objective. These activities were divided into two categories. The first involved students within the campus while the second involved school students.

To date 30 IPTS are involved in conducting one or more of the programmes and have a total enrolment of 7,606 students. Beginning November 1999, IPTS began offering a new programme, the Diploma in Business Management. An initial batch of 732 students have convocated from these external programmes.

Quality Control

Among the quality control measures taken by PPL to ascertain that standards are met and that the quality of the programme is akin to those on campus are:

- IPTS adhere to the minimum standards set by the National Accreditation Board (LAN)
- Use of the on-campus curriculum and evaluation system
- Centralised examination questions setting at the main campus for use by the franchised colleges
- Supervision of the testing standards and course work on a regular basis
- Appointment of a coordinator to supervise implementation of programmes at each IPTS
- The establishment of an External Programme Unit by each faculty to supervise the courses offered
- Annual Quality Audit conducted by the Committee for Academic Quality Control UPM (JUMPA), an independent body set up by the Senate
- Regular training for teaching staff and administrators of IPTS

INSTITUT BIOSAINS

Pembangunan

Semenjak Institut Biosains ditubuhkan pada pertengahan tahun 1996, ia telah membangun dan maju dengan pesatnya. Peranan utama yang termaktub dalam statutnya ialah mewujudkan suatu landasan untuk penyelidik di UPM menjalani penyelidikan serta melatih siswazah dalam pelbagai bidang biologi, terutama dalam teknologi tinggi. Dari segi itu, penyelidikan dan pembangunan (R&D) yang dijalankan berfokus pada pengeluaran makanan dan peningkatan kesihatan penduduk Malaysia.

Bidang-bidang penyelidikan yang dijalankan di Institut Biosains adalah terpilih dan berkaitan antara satu sama lain. Ia merupakan penyelidikan yang strategik, pelbagai disiplin dan *top-down*. Setakat ini, 13 pusat dan makmal telah diwujudkan dalam Institut Biosains yang merangkumi bidang-bidang penyelidikan yang boleh membantu meningkatkan ekonomi dan taraf hidup.

THE BIOSCIENCE INSTITUTE

Development

Since its inception in mid-1996, the Bioscience Institute has seen rapid growth. The primary role of the Institute is to further develop postgraduate research and training in biology and high-tech fields. Thus R&D has seen a focus on food production and enhancing the health status of Malaysians. The research conducted at the Institute is multi-disciplinary, strategic and top-down. Thirteen centres and laboratories have been built in the Bioscience Institute to facilitate research on improving the economy and living standards.

- Plants Genetic Resources Centre
- Analytical & Basic Products Centre
- Precision Agriculture and Remote Sensing Bioresource Centre
- Cancer Research Centre
- Drug Discovery Centre
- Aquatic Resource Technology Centre
- Digestive Microbiology Laboratory

- Pusat Analitikal dan Produk Tulen
- Pusat Pertanian Tepat dan *Remote Sensing* Biosumber

- Makmal Mikrobiologi Penghadaman
- Pusat Teknologi Sumber Akuatik
- Makmal Biologi Molekul
- Pusat Genom
- Pusat Teknologi Fermentasi
- Pusat Teknologi Biokomposit
- Pusat Mikroskopi Elektron dan Sistem Imej

Pusat Teknologi Fermentasi ialah satu pusat yang baru ditubuhkan di Institut Biosains dan ia ditempatkan di Putra Infoport sementara bangunan Kompleks R&D UPM dapat disediakan. Tumpuan diberi kepada pusat ini kerana lebih daripada 20 penemuan penyelidikan tersedia untuk ditingkatkan pengeluaran (*scale-up*) dan dikomersilkan. Peruntukan sebanyak RM9.7 telah diperoleh untuk mendapatkan bioreaktors bagi tujuan tersebut. Dengan tertubuhnya Pusat ini, proses pengkomersilasi produk penyelidikan yang inovatif dapat disegerakan untuk perkembangan industri bioteknologi di Malaysia.

Kemudahan Penyelidikan

Pusat Genom merupakan satu lagi kemudahan penyelidikan pusat di Institut Biosains selain daripada Pusat Mikroskopi Elektron dan Sistem Imej. Satu perkhidmatan yang telah dijalankan adalah penjujukan DNA. Peralatan *sequencer* yang telah diambil alih oleh Institut setelah ia tidak berfungsi kini telah dapat menjana keuntungan daripada hasil perkhidmatannya. Dari keuntungan yang diperolehi, Pusat Genom telah dapat mengambil seorang saintis sebagai penyelidik kontrak untuk mengurus peralatan tersebut. Dengan kejayaannya, Pusat ini akan dibekalkan dengan sebuah *sequencer* baru dan peralatan *DNA microarray* yang akan membawa penyelidikan UPM ke tahap tinggi.

Pusat ini kini dapat membekal perkhidmatan mikroskop elektron bukan sahaja kepada penyelidik dan pelajar siswazah dari UPM, tetapi juga dari institut penyelidikan berhampiran. Pusat ini telah menjalankan pelbagai penyelidikan termasuk dalam bidang sains bahan. Pusat ini juga aktif dalam mengadakan kursus dan bengkel mengenai mikroskop elektron dan konfokal dan telah berjaya melatih ramai saintis dan pelajar dalam bidang ini.

- Microscopic Electron and Image System Centre

Research Facilities

The newly established Fermentation Technology Centre is located temporarily at Putra Infoport awaiting completion of the R&D Complex. This Centre is given priority as 20 research breakthroughs are ready for scale-up and commercialisation. An allocation of RM9.7 M has been obtained to purchase bioreactors for research. This Centre is expected to expedite the process of commercialisation of innovative research products and assist in the development of the biotechnology industry in the country.

Two other research facilities at the Bioscience Institutes are the Genome Centre and Microscopic Electron and Image System Centre. DNA identification is another facility that is already available at the Institute. The taking over of the Sequencer equipment is already generating income and has allowed for the appointment of a Contract Researcher at the Genome Centre. The addition of another sequencer and a DNA microarray equipment is expected to result in cutting-edge research at UPM.

The Centre has been able to provide Electron Microscopic services both to researchers and postgraduate students from UPM and research institutions in the vicinity. The Centre is also involved in various research projects including those on material science. The various courses and workshops on Electron Microscope & Confocal organised by the Centre has contributed towards training scientists and students in this field.

PERPUSTAKAAN

Perpustakaan mengambil beberapa langkah yang perlu ke arah pewujudan Perpustakaan Elektronik. Langganan kepada pangkalan data dan jurnal dalam talian melalui Internet telah ditambah, dan kini meliputi "Dissertation Abstract", "Ebscohost on the World Wide Web", "Institute of Physics Electronic Journals", "Journals of the American Physiological Society", "LINK Information Service (Springer Online Journals)", "Oxford Journals", "Proquest Medical Library", "Sciences of Soils", dan "Wiley Journals Online". Kesemua pangkalan data dan jurnal elektronik tersebut boleh diakses terus melalui Laman Web Perpustakaan. Terdapat juga bahan rujukan elektronik yang boleh diakses secara percuma melalui Internet, seperti "Free Online Journals/Magazines/Newsletters" dan "Indexes and Abstracts" yang telah juga dihubungkan ke Laman Web Perpustakaan supaya boleh diakses seterusnya oleh para pengguna. Beberapa tapak web dan sumber maklumat, dalam dan luar negara telah dihubungkan dengan Laman Web Perpustakaan sebagai langkah meningkatkan akses kepada sumber maklumat elektronik bagi pengguna perpustakaan atau sesiapa sahaja yang melawat Laman Web Perpustakaan. Di samping itu, perpustakaan juga telah memulakan projek pendigitalan bahan, dengan penggunaan pendigitalan tesis sebagai projek perintis.

Satu lagi perpustakaan fakulti ditubuhkan pada bulan November, iaitu bagi Fakulti Perubatan Veterinar dan seorang Pustakawan ditugaskan mengurus koleksi dan perkhidmatannya.

Perkembangan Koleksi

Koleksi buku dan jurnal berjilid berjumlah 375,487 naskhah, sementara koleksi bahan pandang dengar berjumlah 61,970 unit. Sebanyak 158 judul jurnal baru telah dilanggan, 348 dibatal dan 17,163 keluaran jurnal diterima dan direkod. Kebanyakan pembatalan jurnal adalah ekoran daripada langganan jurnal dalam talian tersebut di atas.

Perpustakaan Fakulti Perubatan dan Sains kini mempunyai sejumlah 8,091 naskhah buku, sementara Perpustakaan Fakulti Perubatan Veterinar bermula dengan sejumlah 1,640 naskhah buku.

LIBRARY

The Library is progressing towards being an Electronic Library. On line subscription to databases and journals through Internet has increased recently and now includes *Dissertation Abstract Ebscohost on the World Wide Web*, *Institute of Physics Electronic Journals*, *Journal of the American Physiological Society*, *LINK Information Service (Springer Online Journals)*, *Oxford Journals*, *Proquest Medical Library*, *Science of Soils*, and *Wiley Journals Online*. All these database and electronics journals are accessible directly through the Library Website. Users can also have free access, through the internet, to various databases and electronic journals directly through the Library website such as the *Free Online Journals/Magazines/Newsletters* and *Indexes and Abstracts*. The Library Website is linked to various other foreign and local websites as a means of enhancing information retrieval electronically. The Library has also embarked on digitalising information with the thesis as the pilot project.

Another faculty library was established in November 1999 when the Faculty of Veterinary Medicine established its own library. A senior Librarian manages the collections and service.

Growth in Collection

The journal and book collections total 375,487, while the AVA totals 61,970 units. The library subscribes to about 158 new journals and 17,163 journals currently while 348 journals have been discontinued. This is because these journals are now available on-line.

Perkhidmatan Pinjaman

Pinjaman buku dan jurnal berjumlah 470,761. Sementara pinjaman pandang dengar berjumlah 136,588 yang melibatkan penggunaan 106,656 unit bahan dan 12,408 peralatan.

Keahlian perpustakaan sehingga November 1999 berjumlah 45,768, peningkatan 12% daripada 40,786. Bilangan pengguna yang mengunjungi perpustakaan berjumlah 989,666 orang.

Pangkalan Data Elektronik

Pangkalan Data Dalaman yang diwujudkan dengan menggunakan perisian MINISIS berkembang maju dengan penambahan 8,700 rekod secara keseluruhannya. Sehingga November 1999, jumlah rekod bagi setiap pangkalan data adalah: AGRIMAL (20,752), MAKMAL (48,879), MUWIC (5,104), FAMILY (3,229), HOUSING (3,503), SMI (1,386). Kesemua pangkalan data dalaman tersebut kini boleh diakses melalui Internet dengan peningkatan MINISIS ke sistem klien/pelayar dan terhasilnya satu program antara muka web bagi MINISIS.

Selain daripada pangkalan data dalaman, akses kepada pangkalan data elektronik yang dilanggan juga berkembang dengan peningkatan dalam penggunaan CD-ROM (20,694) dan juga pangkalan data dalam talian tempatan, seperti NSTP Online, PALMOILIS dan SIRIMLINK.

Program Pendidikan Pengguna

Program Orientasi Perpustakaan untuk para pelajar baru telah diadakan sebanyak dua kali bagi pelajar peringkat Ijazah, Diploma dan Matrikulasi, iaitu bagi Sesi Mei dan November, merangkumi 106 sesi ceramah dan tunjuk ajar. Orientasi perpustakaan bagi program pendidikan jarak jauh telah diadakan sebanyak dua belas sesi, sementara enam sesi diadakan untuk program pascasiswazah.

Program Pendidikan Penggunaan Berterusan juga mengadakan sebanyak 119 sesi dengan penyertaan hampir 2000 pelajar. Tujuan program ini ialah untuk memberi kemahiran pencarian maklumat dalam bentuk bercetak dan juga elektronik.

The Library at the Faculty of Medical Science has a collection of 8,091 books while the Library at the Faculty of Veterinary Medicine has 1,640 books.

Loan Service

A total of 470,761 books and journals were on loan while for AVA, the figures were 106,656 units and 12,408 for equipment. Library memberships has increased by 12%, from 40,786 to 45,768 in 1999. Number of library visits was 989,666.

Electronic Database

The Electronic Database has been established using the MINISIS software. This database has expanded to include 8,700 records. As of November 1999, the total number of records for each database is as follows: AGRIMAL (20,752), MAKMAL (48,879), MUWIC (5,104), FAMILY (3,229), HOUSING (3,503), SMI (1,386). Apart from the internal electronic database, other databases such as the CD-ROM (20,694) and local area network such as NSTP online, PALMOILIS and SIRIM LINK saw increased frequency in usage.

User Education Programme

The Library's orientation programme is organised each year for the Diploma, Bachelor and Matriculation students for the May/November sessions; 106 such sessions were organised. A similar programme for IDEAL students (12 sessions) and postgraduate students (6 such sessions) was organised.

The yearly orientation programme was also organised for the regular students. This sessions totalled 119 for 2000 students. The aim of this programme is to equip users with search skills for both the print and electronic media.

A similar course for students from the franchised college of Perdana Education College was organised on 23 March 2000 and for students of the 2 + 1 twinning programme

Kursus Pengenalan Perpustakaan bagi para pelajar francais UPM dari Kolej Pendidikan Perdana telah diadakan pada 22 Mac, sementara bagi pelajar program 2+1 dari sembilan institusi diadakan pada 5 dan 6 April. PUSAT PEMBANGUNAN PERNIAGAAN UNIVERSITI (UBC)

Unit Pembangunan Perniagaan

Unit ini berfungsi untuk mengenal pasti peluang-peluang perniagaan untuk universiti, menyediakan pelan perniagaan untuk mengkomersilkan projek-projek dan mempromosikan peluang perniagaan daripada kumpulan yang dikenal pasti. Antara aktiviti yang telah dijalankan oleh unit ini ialah:

Pembinaan Asrama Pelajar di Kampus UPM

Sepanjang tahun 1999, UBC telah membantu Bahagian Pembangunan UPM menyelia pembinaan asrama Fasa Pertama yang dijalankan oleh Syarikat Strategic Crest Sdn. Bhd. Pembinaan asrama pelajar Fasa Kedua pula masih dibekukan memandangkan keperluan asrama perlu dikaji semula selaras dengan kedatangan ASEAN Games yang akan berlangsung pada 2006.

Katering Makanan (Food Catering Services)

Aktiviti katering makanan ini mula dijalankan pada tahun 1997 oleh syarikat Desasiswa Catering Services Sdn. Bhd., iaitu sebuah syarikat usaha sama UPM dengan Syarikat Dewina Food Services Sdn. Bhd. (DFS), dan masih berterusan sehingga kini. Bagi aktiviti ini, UBC juga membantu Bahagian Pembangunan UPM menyelia aktiviti ini.

Cenderamata berasaskan logo UPM

Pihak UBC telah berbincang dengan syarikat-syarikat yang berminat untuk menjalankan aktiviti francais logo UPM. Syarikat yang berminat akan dilantik untuk memasarkan barangan yang mempunyai logo UPM. Pihak UPM akan

UNIVERSITY BUSINESS DEVELOPMENT CENTRE (UBC)

Business Development Unit

The function of this Unit is to identify business opportunities for the University, prepare business plans to commercialise projects and promote business opportunities. The activities carried out by this unit were:

Construction of a Students Hostel in UPM campus

In 1999, UBC assisted the Development Division of UPM in supervising the construction of Phase I of the hostel by Strategics Crest Co. Ltd. The construction of Phase II of the hostel blocks has been suspended following a review of the actual need for accommodation in view of the ASEAN Games in 2006.

Food Catering Services

Desasiswa Catering Services Ltd. began its catering service in 1999. This is a joint-venture company between UPM and Dewina Food Services Co. Ltd. (DES). UBC has been involved in this business venture.

Souvenirs Portraying UPM Logo

UBC has been negotiating with interested companies to franchise the use of our logo in marketable products for which the University would be paid a royalty. There have been no takers for this project.

mendapat royalti daripada setiap barangan yang dijual oleh syarikat tersebut. Walau bagaimanapun, setakat ini belum ada syarikat yang dilantik untuk menjalankan aktiviti ini.

Ladang Hidroponik di Genting Highland

UBC juga merupakan wakil bagi UPM dalam segala rundingan yang berkaitan projek hidroponik Genting Highland. Dalam hal ini, UPM telah bersetuju untuk menyambung semula kerjasama dengan pihak Monoluxury Sdn. Bhd., selama lima tahun, bermula 1 April 1999, tertakluk kepada perkara berikut:

- Universiti mendapat royalti sebanyak 7.5% daripada jualan kasar tiap-tiap tahun.
- Pihak Monoluxury akan membaiki pulih keseluruhan kawasan tersebut termasuk bangunan dan juga tanah runtuh berdepan kedua-dua banglo.
- Royalti tahun pertama adalah 3% dan mulai tahun kedua 7.5%. Ini sebagai menimbang kos untuk membaiki pulih di atas.

Pihak Monoluxury telah bersetuju dengan syarat-syarat tersebut. Bagaimanapun pihak Monoluxury memohon untuk memanjangkan tempoh perjanjian daripada lima tahun kepada tujuh tahun memandangkan kerja-kerja membaiki pulih bangunan memakan kos yang tinggi iaitu lebih kurang RM200,000 termasuk kos penyelenggaraan untuk sepanjang tempoh perjanjian.

Aktiviti-aktiviti Lain

- Penyewaan ruang perniagaan kepada syarikat, organisasi atau orang perseorangan yang berminat untuk menjalankan perniagaan di UPM. Kadar sewa adalah berdasarkan jumlah jam sesuatu ruang tersebut digunakan.
- Unit Pembangunan Perniagaan juga mengendalikan hal-hal yang berkaitan dengan penggambaran iklan dan filem di kawasan UPM. Kadar yang dikenakan juga bergantung kepada jumlah jam sesebuah syarikat menggunakan tempat penggambaran tersebut.

Hydroponic Project at Genting Highlands

UBC is also UPM's representative in all negotiations regarding the Genting Highlands Hydroponic project. UPM has agreed to renew its collaborations with Monoluxury Sdn. Bhd for 5 years, beginning 1 April, 1999, based on the following conditions :

- The University is given a 7.5% royalty on all estimated annual sales per annum.
- Monoluxury would undertake the upgrading and repair of the entire area including areas affected by landslides.
- To defray the cost of the RM200,000 renovation, the initial royalty would be 3%. This would be increased to 7.5% subsequently.

Monoluxury Co. Ltd. has principally agreed to the above conditions. However, Monoluxury has requested that the period be extended from 5 to 7 years in view of the high cost of upgrading and repair, which amounts to about RM200,000 including maintenance throughout the period of agreement.

Other activities

- Renting of business premises to individuals, companies or organisations which are interested in undertaking businesses. Rentals are based on the number of hours a particular premise is occupied.
- UBC is also involved in negotiating rates for advertisement placing in the Campus. The rates would be calculated on an hourly basis.

Unit Komersilisasi Teknologi

Sepanjang tahun 1999, Unit Komersilisasi Teknologi telah menjalankan dua aktiviti utama iaitu:

Pengkomersilan Hasil Penyelidikan UPM

Unit ini telah membantu penyelidik mengenal pasti individu dan syarikat yang berminat untuk mengkomersilkan hasil penyelidikan UPM. Antara produk penyelidikan tersebut adalah seperti di Jadual 30.

Pameran

Unit juga telah bekerjasama dengan Unit Penyelidikan UPM dalam menjalankan pameran ITEX 99 pada 23-26 September 1999 di The Mines, Seri Kembangan.

Commercialisation of Technology Unit

In 1999, this Unit carried out two important activities:

Commercialisation Research Products of UPM

The Unit assisted in identifying individuals or companies interested in commercialising research products of UPM. The products which are to be considered are shown in Table 30.

Exhibition

With the cooperation of the Research Unit of UPM, the Unit jointly organised the ITEX 99 Exhibition from 23-26 September at The Mines, Seri Kembangan.

Expo Hill Facilities

These facilities are used by various parties both within and without, as well as the students of UPM.

Fish Pond Facilities

In 1999, URP's fish-ponds were used for practical training, recreation, research and fishing competitions. Eight fishing competitions have been held lately.

Advertisement Facilities

URP supervised 11 filming activities carried out by an external agency that wanted to capture the scenic surroundings of UPM.

Training & Advisory Services Division

This Division is responsible for organising training programmes, courses and advisory services for external agencies to generate income for URP as well as staff development. The Division organised (i) four courses/practical training sessions for the public and UPM students and (ii) three staff development courses/lectures.

Kemudahan Pengiklanan

Bahagian Latihan dan Khidmat Nasihat

Bahagian ini bertanggungjawab dalam menganjurkan program latihan, kursus dan khidmat nasihat untuk pihak luar bertujuan menjana kewangan untuk URP, dan juga ceramah dan kursus-kursus bagi tujuan pembangunan staf URP.

Antara aktiviti yang telah dijalankan ialah:

- Empat kursus/latihan praktik untuk pihak luar dan pelajar UPM.
- Tiga kursus/ceramah untuk pembangunan staf URP.

Kemajuan Prestasi

- Oleh kerana URP perlu menjana kewangan sendiri untuk menampung pelaksanaan aktiviti, hanya 40% daripada aktiviti tertumpu kepada penyelidikan dan pembangunan teknologi, selebihnya dari hasil ternakan, tanaman dan aktiviti perkhidmatan yang lain.
- Pembangunan teknologi melalui Pusat Inkubator telah bertambah dengan pesat berbanding tahun sebelumnya.
- URP juga berjaya menguruskan pemindahan teknologi antara UPM dan dimana penyertaan pensyarah dalam aktiviti pusat inkubator telah bertambah.
- URP juga telah berjaya menarik penyelidik-penyelidik dari dalam dan luar UPM untuk menjalankan penyelidikan di UPM.
- Aktiviti pembangunan kormersil masih belum dapat dijalankan sepenuhnya walaupun banyak perbincangan telah diadakan dengan pihak luar. Masalah utama ialah pelan induk belum diluluskan oleh Universiti, syarat-syarat penyewaan yang tidak sesuai dengan kehendak syarikat yang berminat serta proses permohonan yang mengambil masa yang terlalu lama di peringkat universiti, membuatkan syarikat akhirnya menarik diri.
- URP juga telah berjaya memantau prestasi dan perkembangan projek serta melaporkannya kepada Pengurusan UPM.

Performance Appraisal

- As URP is expected to generate its own income to carry out activities, only 40% of its activities were directed at research and technology development while the major part of its efforts were towards animal husbandry, horticulture and other service activities.
- In 1999, there was increased technology development through the Incubator Centre.
- URP was successful in transferring technology as indicated by increased participation of lecturers in the activities of the Incubator Centre.
- URP has been successful in drawing researchers to UPM
- Commercial development of products has not taken off as yet as negotiations are still underway with the parties concerned. Meanwhile as the master plan has not been approved, the delay in processing applications has led to the withdrawal of several companies. Several companies have also complained of URP's rental/lease rates.
- URP has also succeeded in monitoring project development and performance and has reported it to the UPM management.
